## The course comprises five areas of study:

- ▶ Leading improvement
- ▶ Underpinning principles
- ▶ Developing others
- ▶ Furthering your specialism
- ▶ Embedding in practice

## What will studying the course involve?

- ▶ Local cohort groups mean less travel time and online self-study that can be accessed at any time and from anywhere, for easy access and reference whenever needed.
- ▶ Tailored content through regular formative assessments and surveys and real-life situations so you can see yourself in examples which in turn support you to apply new techniques quickly.
- ▶ Access to National Specialist Tutors for selected specialisms, who will provide additional support throughout each programme.
- ▶ Supportive scheduling with part-time options to suit you, recorded/additional sessions in case of last-minute unavailability, and enhanced well-being and workload reduction resources.

## When studying for your NPQLL you will have the opportunity to work in a number of different ways:

- ▶ An introduction and diagnostic assessment to scaffold and frame your learning, identify gaps in your knowledge and help you target the areas most relevant to your development.
- ▶ Tutor sessions, led by a Local Lead Trainer which will provide you with individual feedback and support.
- ▶ Lots of online evidence and examples to introduce you to key ideas and demonstrate how you could implement these concepts in your own context.
- ▶ Regular micro implementation tasks to reinforce the overall approach to managing improvement and prepare you for the summative assessment.
- ▶ Face-to-face and live online training where together with your peers you'll learn through expert-led dialogue, collaborative activities, and structured practice of new techniques.
- ▶ Embedded formative assessment activities to check your understanding and confidence, signpost you towards further learning and provide feedback that's individual to you.
